

Case study

Summit Concrete: a named baseline for a Utah concrete contractor

Summit Concrete is an onboarding-stage New Reward client. A live prospect SEO audit on June 11, 2026 put four honest numbers on summitconcreteutah.com - SEO 87, AI visibility 16, AI readiness 66, AI opportunity 55 - and ...

Measured proof

16/100

AI Visibility: Whether the brand comes up when AI is asked naturally - the measured gap (June 11, 2026 audit).

Return proof

Outcome lift not claimable yet

The engagement is onboarding-stage. Lead, call, ranking, traffic, ...

Next evidence

Named baseline audit

Shipped citation, partner-link, and authority-proof work

Proof boundary

This proves a named, source-backed baseline measurement on a real client domain. It does not claim lead growth, call growth, ranking improvement, traffic lift, AI citation lift, revenue, or ROI - no delivery work has shipped yet.

Evidence appendix

Evidence, limits, and source notes.

Problem

Summit Concrete builds concrete work for Utah custom homes, and its SEO foundations are strong â but nobody had measured whether buyers asking AI naturally, ...

What New Reward did

New Reward ran the live prospect SEO audit on summitconcreteutah.com, recorded the four baseline scores, and flagged the finding that sets the work plan: the br...

Result

The June 11, 2026 audit recorded an SEO Score of 87 (strong), AI Visibility of 16 (the gap), AI Readiness of 66, and AI Opportunity of 55. Direct brand prompts...

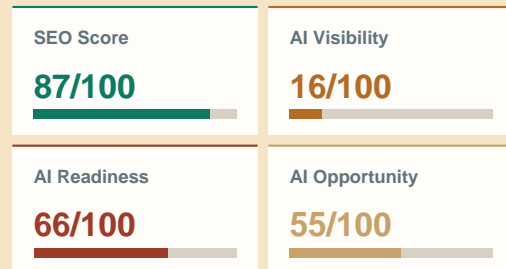

Why it matters

Contractor work is won by the company buyers can find and trust. This baseline makes the gap honest: the SEO foundation is already strong, so the work ahead is...

Caveats

- Do not claim lead growth, call growth, ranking improvement, traffic lift, AI citation lift, ...
- The June 11, 2026 scores come from a live outside-in prospect SEO audit; review data and ...
- The AI-visibility work plan is drafted, not shipped; no delivery outcomes exist yet.

Measured signals

Work performed

- Ran the live prospect SEO audit on summitconcreteutah.com (June 11, 2026).
- Recorded the four baseline scores: SEO 87, AI visibility 16, AI readiness 66, AI ...
- Recorded the prompt evidence behind the gap: 100% mention rate on 6 direct bran...
- Flagged natural-language AI visibility as the gap the engagement exists to close;...

What remains bounded

- This proves a named, source-backed baseline measurement on a real client ...
- Do not claim lead growth, call growth, ranking improvement, traffic lift, AI ...
